

**Revolutions in Rep Weave by Kelly Marshall  
Hosted by the Madison Weavers Guild  
Oct 3 - 5, 2025**

**Mixed Media Studio at the Adamah Art Studio & Retreat Center, Dodgeville, WI 53533**

Rep weave is a dense, warp-faced weave that creates a ribbed texture. Kelly Marshall is recognized for combining rep weave's rich texture and linear structure into extraordinary textiles inspired by the aesthetics of the Arts & Crafts movement, contemporary design, and traditional Scandinavian weaving. She started her weaving business Custom Woven Interiors in 1992, published her book [Custom Woven Interiors: Bringing color and design home with Rep weave](#) in 2012, and is an experienced workshop instructor with stellar recommendations from past workshop participants.

**Course Description**

This workshop will encompass a lecture covering the unique characteristics of rep weave, color blending and designing, pattern block movement as well as demonstrating weaving technique and material selection. Each student will be working on their own loom. Participants will receive a packet of warping instructions for either a 4 or 8 shaft pattern, to create a 10" wide table runner. They can use suggested color ideas or select their own. Participants will be required to have their looms warped before the workshop begins, usually using a 5/2 mercerized cotton for warp.

- Day 1-morning: intros, basics of Rep weave, design options for their pattern. -afternoon: work on looms, weaving demonstration, beginning and ending.
- Day 2-morning: work on looms, Rep structure and drafting -afternoon: weaving
- Day 3-In depth design in Rep, and designing the next project.
